

HG 2620 E without restart protection

Powerful. Tough. Robust. Safe.

Technical Specifications

Power supply: 120 VAC, 50/60 Hz
 Output: 1750 W
 Temperature: 120 - 1300° F
 Temperature setting: Infinitely variable in 10° F steps by toggle
 Thermal cutout: Yes
 Airflow rate: 2 – 13 cfm (+/- 0.5 cfm)
 Air pressure: 3,000 Pa

Features: Display in field of vision, plug-in heating element, ergonomic grip, safety heat indicator, fine dust filter, 4 memory programs, digital display, field changeable power cord, LOC function, without restart protection (automatically turns on and returns to last temperature / airflow settings upon regain of power).

Applications: Ideal for manufacturing

Motor: Brushless
 Motor life: 10,000 hours
 Heating element: Ceramic heating element

Weight: 1.85 lbs.
 Dimensions: 14.10" x 3.60" x 3.70"
 (L x W x D)
 Warranty: 1 year
