Did you know?

COEUS™ is the easy way to simplify and unify a building's lighting

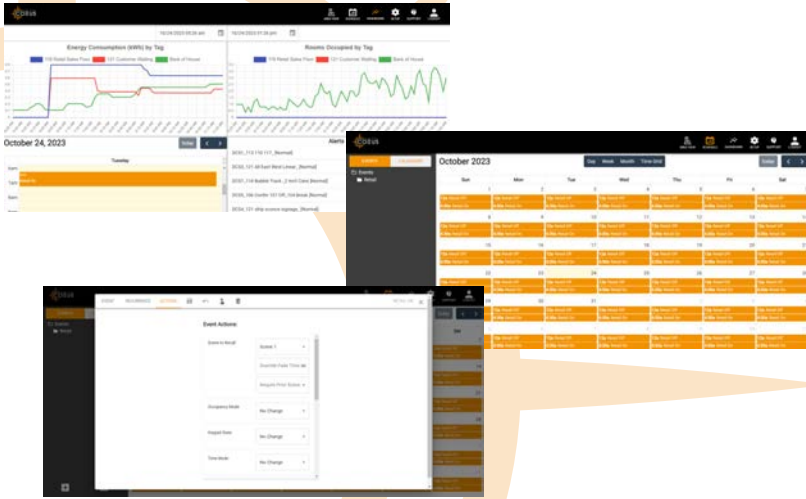

COEUS is STEINEL'S building intelligence and centralized control management system that simplifies the integration of all lighting controls, creating greater efficiency and control. Plus, it incorporates a highly user-friendly interface that delivers seamless compatibility with a whole host of smart system technologies. COEUS can make your building's lighting better, more energy efficient and give you the control to light up your space only when needed.

STEINEL America

**LIGHTING
CONTROLS**

steinel.net

Enjoy advanced reporting, analytics, lighting management in COEUS, it's all part of the platform. Plus, COEUS works seamlessly with signals from DCS Connect – STEINEL'S digital control solution with BACnet – which means everything works within the building IoT.

COEUS runs on an on-site PC solution off the building's secure network, and also offers a new tablet package for greater flexibility of operation. COEUS is secure, reliable, and ready to go when you are.

Building intelligence done right. Discover COEUS today.
