

# IT'S MORE THAN A SENSOR

STEINEL is an inventor's company. We craft lighting solutions to the highest standards of German engineering. When you select STEINEL, count on superior performance, more value for your money and unparalleled customer service.

## **Increased Zone Range**

*Save money by covering larger spaces with fewer sensors.*

## **Presence Detection**

*High definition presence detection with up to 4800 switching zones for superior sensitivity.*

## **European Manufactured**

*Quality and standards are maintained by using our own factories.*

## **Square Coverage Pattern**

*Our unique, square sensor shape lessens gaps and blind spots for fewer "false offs".*

## **Advanced Technology**

*We specialize in commercial lighting solutions—meaning our products are optimized for your needs.*

## **A Robust Lineup**

*From stand-alone sensors and switches to integrated systems, our solutions fit your needs, save money and we provide support through personal customer and technical service after the sale.*

**steinel**

Invention in action. For every job.
